Grade 4 Subtraction Worksheets - free & printable | K5 Learning

Skill 4: Dividing Decimals The easiest way to divide decimals is to use the following steps: Step 1: Move the decimal place of the number you are dividing by to turn it into a whole number. Step 2: Remember/write down how many decimal places you have moved in total. Step 3: Complete the long division method. Step 4: Move the decimal place back the same amount at the end to get your final answer.
