### A Smile In The Mind

Try this test: Smile. Now try to think of something negative without losing the smile. It's hard, isn't it? Smiling can influence your feelings of positivity, even if it feels unnatural or forced. Regardless of whether or not your smile is genuine, it still sends the message that "Life is good!" to your brain and, ultimately, the rest of your body.

### 10 Big Benefits of Smiling - Verywell Mind

If we look at a smile that only raises the corners of the lips and the upper lip, it takes only five muscle pairs, or 10 total muscles, to do so. However, if the smile is further reduced to a robotic expression of just raising the corners of the mouth, then it takes only two muscle pairs (four muscles) to smile.

Keep in mind, however, that happiness means different things to different people. Identify What Makes You Happy . The first step to making yourself happy is to figure out what things in life bring you joy and contentment. This means assessing the things that actually bring you joy and not what societal expectations tell you about joy.
