The Bedford HA was a car derived van introduced in 1963 by Bedford, based on the Vauxhall Viva (HA) family car. It was also known as the Bedford Beagle in estate form and Bedford Roma in small campervan form. The Beagle was an officially sanctioned conversion based on the 8 cwt van, carried out by Martin Walter of Folkestone, Kent. The Beagle received rear side windows and a fold-down rear ...

Bedford HA - Wikipedia

Diesel engines use a fuel injection system to get the fuel into the combustion chamber, where petrol generators mostly still use a carburettor, especially the cheaper models. You get petrol engines that is fuel injected, but it is on the more advanced engines, not common with small generators.

Diesel Generator Prices | Silent Generators South Africa.

R. Muthu Dinesh Kumar, R. Anand, in Advanced Biofuels, 2019 5.11.1.5 Producer gas-diesel dual fuel engines. A compression ignition engine system using producer gas as a fuel cannot be entirely operated without the little amount of diesel. Due to this reason the producer gas cannot ignite by itself under normal pressure. Therefore, compression ignition system with producer gas as a fuel should ...
