Coaching is used in schools, business organizations, performance venues, and individual counseling programs.

Coaching | Psychology Today
Coaching is a form of development in which an experienced person, called a coach, supports a learner or client in achieving a specific personal or professional goal by providing training and guidance. The learner is sometimes called a coachee.

Coaching - Wikipedia
Coaching involves the belief that the individual has the answers to their own problems within them. The coach is not a subject expert, but rather is focused on helping the individual to unlock their own potential. The focus is very much on the individual and what is inside their head.

What is Coaching? | SkillsYouNeed
Coaching is a partnership between coach and client. The coach helps the client to achieve their personal best and to produce the results they want in their personal and professional lives. Coaching ensures the client can give their best, learn and develop in the way they wish. The coach need not be an expert in their clients' field of work.

What is Coaching? - International Coaching Community
Coaching is all about helping people make positive changes. So the more people coaching touches, the more positive the world can be. If helping people reach their full potential is something you're interested in, then check out the becomea.coach website and see if a new career is calling you.

The Gold Standard in Coaching | ICF - Be a Coach
Counseling or coaching is part of the day-to-day interaction between a supervisor and an employee who reports to her, or an HR professional and line managers. Coaching often provides positive feedback about employee contributions. Employees need to know when they are effective contributors.
