Cosmic ancestry is a hypothesis of the origin of life on Earth, based on the panspermia views of Fred Hoyle and Chandra Wickramasinghe. Cosmic Ancestry speculates that life, like the universe itself, has no date of origin, and has always existed and can only descend from ancestors at least as highly evolved as itself. Under this belief, life on Earth was delivered from space. This belief stands in stark contrast to the theory accepted by most cosmologists that the age of the universe is roughly
