Dehydrated fruits and vegetables must be very low moisture and dry enough to snap. Dehydrated potatoes, carrots, celery, peppers, onions, and potato flakes are common long term dehydrated food storage items. Properly processed freeze-dried fruits, vegetables, and meats are also good candidates for long term storage.

Apparently to the Mormons, this is just common sense. On their Provident Living website they talk about first building a short-term food supply to last 3 months, then expanding out to a long-term supply of one year. In addition, they talk about storing water and other necessities (like personal hygiene).
