Web Animation using JavaScript: Develop and Design, 1st ...

Manual Animation. So let's implement one simple animation using DOM object properties and JavaScript functions as follows.

Access Free Web Animation Using

The following list contains different DOM methods. We are using the JavaScript function `getElementById()` to get a DOM object and then assigning it to a global variable `imgObj`.

JavaScript - Animation - Tutorialspoint

JavaScript animations are done by programming gradual changes in an element's style. The

Access Free Web Animation Using Javascript

changes are called by a timer. When the timer interval is small, the animation looks continuous. The basic code is: Example. var id = setInterval (frame, 5); function frame () { if (/* test for finished */) { clearInterval (id);
